Baldwin's **FREE GIFT For 1942!**

IS FREE NURSERY STOCK Of Your Own Selection

For several years we have selected a **FREE OFFER** to give our customers in appreciation of their orders. This year we want you to have something of your own choosing. Here's how you do it—make up your order for what you want from this catalog in the usual way, deduct any discounts you are entitled to, total it, and then when your order amounts to:—

\$2.50 select 50c worth of Extra Stock FREE

\$5.00 select \$1.00 worth of Extra Stock FREE

\$7.50, or more, \$1.50 worth of Extra Stock FREE

*Note—no collections or special offers may be included in the order total for the **FREE GIFT***

BALDWIN'S GUARANTEE

For 53 years the Baldwins have backed up this guarantee to the entire satisfaction of their thousands of customers everywhere. We guarantee every plant, tree, shrub or bulb sold by us to be first class, free from injurious disease or insects, and true-to-name. We further guarantee our stock to reach you in good growing condition and will replace free of charge any that does not, when we are notified within 5 days of receipt of stock. Also we will, on proper proof, replace or refund the purchase price of any stock that proves untrue to name. We are, of course, not liable for more than the purchase price of stock ordered.

All contracts and agreements are made subject to flood, drought, fire, frost, crop failure or other causes beyond our control.

CASH DISCOUNTS FOR EARLY ORDERS

10% on orders sent by Feb. 10th

5% on orders sent by March 10th

These discounts apply to all prices in the catalog except special collections and where otherwise noted, or special prices quoted by letter. Cash in full must be sent with order.

Add Extra Stock for the Amount of Discount if You Prefer.

PREMIER The Great

**Earliest of All—
Frost Proof**

If you want to make more money, plant Premier this spring!

O. A. D. Baldwin

Our Greeting for 1942

First of all we want to take a moment to thank each of our many customers for the business you gave us last year. It is appreciated and we hope our efforts to give you the best nursery stock possible have helped to make your plantings successful.

While no one of us can say what the future will bring, there are some things that we can all look forward to with undoubted certainty. Our Federal Government is bringing increased attention to the necessity of "Food-for-Defense" and has marked the doubling of the consumption of many kinds of fresh fruits as its goal in maintaining the health of our people both at home and at the front. Every fruit grower can do his part by increasing his fruit production. There will be a ready market for his crops at good prices. Those who have garden space—small or large—can not only grow enough for home use, but can have an opportunity to make a worthwhile extra income.

It is to everyone's advantage that just when this greater demand for fruit comes, there is also a number of unusually fine newer varieties of all kinds of fruits being perfected and ready for general planting. You will find 12 such varieties in this catalog in strawberries, raspberries, blackberries, peaches, pears. The older kinds are no less desirable and valuable. All have proven of outstanding value and generally satisfactory in all fruit growing sections.

This is the most complete selection we have had in years. Our soil and climate here in the heart of the Michigan Fruit Belt produces the finest of all kinds of plants and trees. In nursery stock, more than in most things, good quality cannot be seen and confidence is the guide to where your order is placed. The fact that this is our 53rd successful year in the nursery business reminds us forcibly of the splendid confidence our many customers have in us and makes us feel more strongly each year our obligation to give the finest quality at a reasonable price.

Please feel free to write us at any time. Our years of experience are yours to call on not only before but also after you have received your shipment. Again we ask for your order and know you will be fully satisfied in every way with our nursery stock and the service we give you.

G. W. R. Baldwin

Commercial Berry

When all is considered PREMIER is the most profitable strawberry variety grown today. It puts a big crop of fine appearing berries on the market first every time and does it in spite of frosts that often kill other varieties. These two facts are PREMIER'S greatest points of superiority as a dependable money-maker. PREMIER eliminates crop failures, and by ripening five days to a week earlier than any other kind, it never fails to command high prices. Always produces its good crops on a wide range of soils and climates throughout the country.

Actually millions more Premier plants have been sold the past few years than any other kind. Premier continues to be widely planted in larger quantities than any other early berry. Growers know that PREMIER is an unfailing money-maker every year. Consumers demand it. You will need to grow PREMIER—and plenty of them—to be in the berry business profitably.

Order at once so we can reserve yours. Our plants are guaranteed true-to-name, healthy and vigorous. You can depend on them to make money.

Why Premier is Better

1. First to ripen.
2. Remarkably frost resistant.
3. Long fruiting season.
4. Unusually large crops.
5. Size above average.
6. Bright, glossy, solid color.
7. Uniform, attractive shape.
8. Firm berry, excellent shipper.
9. Buyers pay a big premium for Premier.

STRAWBERRIES

DRESDEN

A

Midseason

Commercial

Moneymaker

Dresden

Here is another fine strawberry originated by George L. Slate of the N. Y. Expt. Station. Premier is one of its parents and Dresden out-yields that wonderful variety. A crop of over 15,000 quarts per acre has been reported. Keeps well after picking and many growers rate it above Premier. A dependable variety for northern and central sections of the country. Crop ripens just before Catskill.

Fruit is medium to large, bright light red,

and makes a most attractive pack—bringing best prices; ships well to market, firm and of good quality. If you want big yields from small garden space, Dresden fully answers the purpose. Big thrifty plants are unusually strong, vigorous, upright growers to produce the enormous crop.

We recommend Dresden as a better, new, profitable berry, well worth planting.

SHELTON This new variety originated at Connecticut Expt. Station, gives great promise as an excellent, profitable early berry. Ripens with Premier, produces about the same amount of fruit. Shelton ships well. Its berries are good size, fine bright red color and bright green caps, uniform shape. Their firmness and attractive appearance when they reach market should make for profitable sales. Shelton is worthy of a trial and its quality and flavor are good in any garden.

HEBRON Many call Hebron the prettiest strawberry grown because of its unusually light, bright red color and contrasting dark green caps. Ripens very late when other varieties are nearly gone. Plants are large, very vigorous growers and produce good crops. Although a little soft for long shipment, its extra fine appearance and late season should bring big returns on local markets. A real late berry is always welcome in the home garden.

Our Specialty For Over 50 Years

These Varieties Pay for Garden or Market

You can make money every year with strawberries. They show a record of good profits through "good" and "bad" years. Strawberries are easy to grow, produce a big crop in small space, and remember, they are the only fruit that will bring you a full crop in one year from planting.

Start with good plants. Fifty years' experience are behind Baldwin's plants—guaranteed true-to-name and in healthy planting condition when you get them. You cannot get better anywhere at any price. Be certain of good growth and good crops. We offer only those varieties—both old and new—that we know are dependable and profitable. Many kinds, particularly the newer ones, sell early so we urge you not to delay your order.

Catskill

Best and Most Profitable Midseason Berry

It is only once in a while that a new variety proves so satisfactory in every way and so profitable as Catskill has done. Its big-
gest feature is its enormous crops of big, fine, bright scarlet, green-capped berries. Picking begins just after the early kinds and Catskill berries are of great size and firmness to the last. Plants are unusually strong, hardy, healthy, little affected by diseases and will produce their great yields in all soils and seasons. With Premier for early and Catskill for midseason to late, you have a combination for top prices over the best of the strawberry season.

Enormous Crops of Fine, Big Berries

Such a splendid midseason berry is needed to follow the fine very early varieties Premier, Dorsett and Fairfax. CATSKILL does it successfully, and is making money for everyone who grows it. It will pay you and we recommend it fully. For home garden, Catskill is ideal because its fine flavor, rich color and large size are just right for canning and preserving or fresh for table use.

New York Experiment Station, the originator, says:—"Catskill is notable for being very large and very productive. Plants are vigorous and free from leaf-spot. Ripens later than Premier and is of better quality as well as being larger. Much more productive than Dorsett and Fairfax."

BE SURE TO PLANT CATSKILL THIS SPRING.

CATSKILL PRICES

| 1,000 for..... | \$7.60 | | |

Catskill

Dorsett

DORSETT

For Big Early Crops

One of the best of all varieties for big regular crops. You can depend on it for good profits every year. Dorsett has been widely planted in all fruit sections and has come through with paying crops every time. We advise you to plant it. You need Dorsett to get the most out of your berries.

Every Desirable Strawberry Feature

Experiment Stations in Michigan, Illinois, New York, and Washington, D. C., do not hesitate to say that it is superior to Premier in size and quality. Commercial growers like Dorsett because it makes money. It does so because its firmness, big size, fine flavor and wonderfully bright color are just what both wholesale buyers and the housewife want. Originated by the U.S. Dept. of Agriculture at Washington, 1923, it has proven superior in these points.

1. Ripens almost as early as Premier.
2. Size and yield above average.
3. Very vigorous grower, making almost as many plants as Blakemore—assuring good crops even in poor seasons.
4. Firmer berries—fine shipper.
5. Light red, glossy berries that buyers pay more for.
6. Flavor superior to any other unless it is Fairfax.

With these features combined in one berry, you have the ideal berry for home or commercial use. You will make no mistake in a good planting this spring. We have a stock of fine, genuine Dorsett. Don't wait—there is a big demand.

DORSETT PRICES

Grand Champion

Remarkably Long Fruiting—40 Days

Tall vigorous plants protect early blossoms from frost and also keep the last berries fresh and bright. More fruit growers are planting it every year. Make your planting this spring.

**BIG CROPS—GOOD QUALITY—
GREAT SIZE**

GRAND CHAMPION is a money-maker. Unusually frost resistant; ripens over an unbelievably long season beginning a few days after Premier—sometimes lasts 40 days. Growers make big profits with **Grand Champion** because of its big crops, good quality, great size and good shipping qualities that put it on the market for top prices. We recommend it for your planting.

**Ours are genuine GRAND CHAMPION.
Plant this spring.**

GRAND CHAMPION PRICES

| | | | |
|---------------|--------|----------------|--------|
| 25 for | \$0.45 | 200 for | \$2.25 |
| 50 for | .75 | 300 for | 2.90 |
| 100 for | 1.25 | 400 for | 3.55 |
| | | 1000 for | \$7.75 |

FAIRFAX—Early

Leads All In Firmness and Quality

Like Dorsett, Fairfax is a superior berry, particularly in firmness and flavor. Originated by U. S. D. A. in 1925. Big profits to growers and rapidly increasing plant sales show that Fairfax is making good as one of the leading varieties.

How Fairfax Differs From Dorsett

1. Called the most deliciously flavored of all. 2. Even firmer berries. 3. Berries are larger. 4. Color dark red, turning darker after picking. 5. Does not make quite so many plants. 6. Not quite so productive as Dorsett but will average as good as Premier.

WHICH TO PLANT? Both are wonderfully fine berries. Both are of superior size and flavor, making either desirable for home gardens. The lighter, more attractive color of Dorsett may make it more profitable for the general market. But the somewhat larger size and exceptional quality of Fairfax are to be considered. **BE SURE TO PLANT SOME FAIRFAX THIS SPRING.**

Fairfax

AROMA

Most Profitable Late Berry

Look over any government report of strawberry production and you will see that growers in those sections where Aroma is widely grown, ship a full crop every season and regularly receive top prices for their Aroma. In spite of any newer late varieties it is still the best and most satisfactory late berry for general commercial planting in all fruit sections. It is a fancy market berry.

A steady producer of big round, deep red glossy berries of excellent eating quality. Tough skin and firm flesh make a splendid shipper. Produces its big crop on any good soil.

AROMA is unusually mild and sweet. A fancy berry in the truest sense of the word, which greatly adds to its marketability at top prices. Steadily growing in favor for the last 15 years; has proven its worth under all conditions. Our guarantee is behind this variety in every respect.

AROMA PRICES

| 100 for | 1.10 | 400 for | 3.00 |
| 1000 for | \$6.25 | | |

GIBSON—Mid-Early

We are growing a fine lot of plants of this old favorite variety for those of our customers who prefer it. Gibson's big, strong plants always produce a full crop. Prices same as Beaver.

Aroma

BEAVER—Early

For Poor Soils and Cold Winters

PRODUCTIVE HARDY BERRY. A newer variety recently originated in Wisconsin and has proven a satisfactory producer in all northern fruit sections. A cross between Premier and Dr. Burrill. Beaver berries have the bright attractive appearance and uniform shape of Premier, but like Dr. Burrill it is a much better plant maker on any good land and is especially recommended for poorer soils. For this reason, Beaver is more certain than Premier to bring regular good crops.

Fruiting season is long, beginning with Premier. Local Beaver growers received the same high prices paid for Premier. It has the ability to produce plenty of new plants, firm fine colored berries, and big crops in good or bad seasons. You will be right in planting Beaver.

Beaver and Gibson Prices

| | | | |
|----------------|--------|---------------|--------|
| 25 for | \$0.45 | 200 for | \$1.70 |
| 50 for | .65 | 300 for | 2.50 |
| 100 for | 1.00 | 400 for | 2.95 |
| 1000 for | \$5.65 | | |

CLERMONT

A New Medium Early Variety

Outstanding for exceptionally heavy plant growth and big crops of large, smooth, fine colored berries. Side by side with Premier it has produced larger sized fruit and greater quantity at a picking. Introduced by N. Y. Experiment Station. Recommended for general northern planting—a hardy, vigorous grower, well worth a good trial. Clermont berries are unusually fine flavored.

ABERDEEN

Midseason Money-Maker

One of the heaviest producers of fine, large, light colored berries—the kind that always sell well. Just a dandy berry for all home uses, too. Does well on heavier soils. Try Aberdeen.

Clermont and Aberdeen Prices

| | | | |
|----------------|--------|---------------|--------|
| 25 for | \$0.45 | 200 for | \$2.25 |
| 50 for | .75 | 300 for | 2.90 |
| 100 for | 1.25 | 400 for | 3.55 |
| 1000 for | \$7.75 | | |

Beaver

Blakemore —Very Early

Exceptionally Productive—An Ideal Shipper

An early berry of outstanding commercial value. One of the firmest berries we know of and its glossy, bright red color does not fade or turn dark when picked. These two facts and its very early season make it a most profitable variety for either local or distant markets.

Firm Bright Berries—Real Strawberry Flavor

Unusually good plant maker—much better than Premier in this respect. Berries resemble Premier but are lighter red, as large and have more of a “strawberry” flavor and therefore better for canning and preserving. Fruit stems are upright, making easy picking. Plants are vigorous, healthy growers. One of the most valuable varieties originated by U. S. Department of Agriculture.

Particularly desirable on locations where it is hard to get a good stand of Premier. Blakemore when kept to a narrow picking row will produce a money-making crop of finest berries every time.

BLAKEMORE PRICES

Senator Dunlap

Senator Dunlap

Senator Dunlap (or Dr. Burrill) is probably better known throughout the country than any other strawberry. It has the reputation of producing full crops in a wider range of soil and climate than any other variety. No wonder growers in nearly every state in the Union order more of this old reliable berry every year. Today Senator Dunlap is one of the three or four strawberries that buyers know and ask for throughout the country.

Certain Crops Everywhere

Uniform berries of dark red color. Splendid shipper and ready seller because of its attractive appearance.

Green Mountain
An Everbearer with a Spring
From Its Well

SENATOR DUNLAP PRICES

Surplus Strawberry Plants

Each day there are some plants dug extra and rather than throw these away we offer them at these low prices. All are standard, June-bearing kinds (no everbearers), fresh dug, labeled true-to-name.

Our selection, 300 or more. Prices net, no discount. 300 for \$1.85; 500 for \$2.15; 1000 for \$3.75.

Green Mountain

**An Everbearer with a Spring
Crop As Well**

This new variety from Vermont has been grown long enough and widely enough to establish itself as a good everbearer and also as a fine heavy bearing very late spring berry. Usually recommended for cold climates and rich soils. June berries are for cold climates and fall berries are long and more uniform conic; fall berries are long and more flat. Fall fruit is of good quality, dry and firm for long shipment; bright and shiny with prominent yellow seeds. Fall crop is at its best in September and October.

As Green Mountain is a patented variety it is understood when you purchase plants that you purchase with the right to the fruit crops produced and to propagate plants for your own use but not to sell or to give away.

GREEN MOUNTAIN PRICES

| | | | |

Gem Everbearing Strawberries

Make Money This Fall With Gem

Gem is the everbearer fruit growers have been looking for, because, unlike all other everbearers, it is an excellent plant maker on good or poor soils and in wet or dry seasons. This fact means that it can be depended on for good crops every year. Here we have a really fine fall berry of good size, fine flavor and unusual firmness.

Productiveness—Flavor—Firmness

1. **Productiveness.** GEM makes so many more plants than other everbearers that it produces many more berries.
2. **Flavor.** A true strawberry flavor—something most everbearers don't have.
3. **Firmness.** Remarkably firm—only everbearer that reaches market in really first class shape.
4. **Profits.** Because of size, firmness and sure crops—good profits are certain.

MICHIGAN EXP. STATION SAYS: "Gem is certainly a wonder as far as plant making is concerned and it certainly bears well."

You can plant Gem with full confidence of a full fall crop and good profits.

Pick FULL CROP through this fall.

A second FULL CROP next spring.

A third FULL CROP next summer and fall.

WAYZATA Finest Flavor of All

Government Experiment Stations say: "Wayzata is far superior to any other everbearer; large as Mastodon; bears heavier; most attractive appearance; best of all everbearers in quality and flavor."

Wayzata has proven every one of these statements in home gardens and commercial plantings all over the country. If you are not now growing it, you should do so because Wayzata is the best everbearer and finest flavored strawberry we have ever seen.

It does not make many plants but each plant makes several fruit bearing crowns, each crown full of fruit stems so that the yield of one plant is many times the average. More plants can be set on small space and greater crops picked. **Exceptionally strong growers on any good soil; withstand drought remarkably well. Red clear through—no green tips. Wayzata is hardy and frost resistant. PLANT IN APRIL—BEGIN PICKING IN JULY—KEEP PICKING INTO OCTOBER.**

MASTODON

Most Widely Planted Everbearer

Everyone wants and needs a good everbearer that can be depended on to produce plenty of good fruit regularly in the late summer and fall. Mastodon has shown year after year that it will do this in all sections and under most any soil and weather conditions. It is entirely satisfactory for the home garden or commercial patch. **Baldwin's Mastodon Plants** are guaranteed true-to-name and will do these things for you. Through years of proper selection and propagation they are superior in vitality and productiveness. The berries are "Mastodons" in size.

Plant plenty Mastodon and have good fruit to sell at top prices this summer and fall.

Wayzata Clump Plants

Produce More Fruit Quicker

These are big, 2-year-old Wayzata mother plants that have grown a number of new crowns and new roots, several times as large as a one-year runner plant. Planted this spring each crown will make many fruit stems and the whole plant should produce a great quantity of berries this summer and fall. Plant in good rich soil; supply plenty of water. (Acid Sodas Humus, about one pound per plant, is a help on poor or dry soils.) Keep buds picked off to about June 15th; berries will ripen in early July.

Grow RHUBARB

Grow More for Garden and Market

Rhubarb and Asparagus should be in every garden because they are delicious and healthful. Everyone needs more of them both fresh and canned. Both are so easy to grow and there is always space around the edge of the garden for enough roots to provide all you need. There is good money in growing asparagus and rhubarb for the fresh or canning market. More and more people are finding them a source of extra income, even with small plantings. Why not plant more of both this spring?

MacDonald Crimson The New Red Rhubarb

This new variety is the best of all. Yields heavily from spring right through to late summer because it never goes to seed. Will last for years. Produces unusually large attractive crimson stalks and the good thing is that they are very tender and juicy (skin and all); not tough or stringy as most large stalks are. If everyone knew this grand new red rhubarb no other kind would be planted. It is so much better in every way—large size, rich red color, greater production, and best of all a deliciously sweet flavor. Superior for canning—each piece pink, tender, not stringy, the syrup rich in color, and all a wonderfully mild flavor.

Ours are all strong division roots ready to produce quickly. Planted this spring they will make fine large stalks for your use this summer and fall and of course again in the usual early spring season. Excellent for winter forcing.

PRICES—Each 35c; 3 for 98c; 6 for \$1.85; 12 for \$3.65; 25 for \$6.80; 100 for \$25.00.

MYATT'S VICTORIA Early. Rhubarb is in greater demand every year at food stores everywhere. Victoria is the preferred market variety and is generally planted. Good for winter forcing, too, when prices are highest.

Attractive pink stalk, delicious, mild flavor. This pink stalk, tender variety is preferred and brings best prices. Our stock is carefully grown from guaranteed tested seed. Victoria is ideal for pies and sauce. Transplants easily; produces abundantly.

1-yr., $\frac{1}{2}$ to 1 Inch—Each 6c; 6 for 30c; 12 for 45c; 25 for 85c; 50 for \$1.45; 100 for \$2.75; 250 for \$6.45; 1000 for \$18.50.

1-yr., 1 Inch and up—Each 8c; 6 for 40c; 12 for 60c; 25 for \$1.10; 50 for \$1.90; 100 for \$3.75; 250 for \$8.55; 1000 for \$24.50.

VICTORIA CLUMPS

Large 2-year-olds, ready to produce this summer. Just the thing to get Rhubarb started quickly in your garden.

PRICES—Each 18c; 3 for 45c; 6 for 70c; 12 for \$1.00.

& ASPARAGUS *For Profit*

REGULAR CROPS YEAR AFTER YEAR

Asparagus is easy to grow and you can make big profits from a small space. 50 to 150 plants will supply this delicious food for the family. A bed lasts for 10 to 15 years, and you can depend on heavy regular crops from our roots. It is most important that you get strong, healthy true-to-name plants. We grow them by the thousands from guaranteed tested seed on special soil to give you the best planting stock possible.

Mary Washington

Mary Washington

Improved variety developed and recommended by U. S. Dept. of Agriculture. Heavy yielding, pedigreed strain immune to rust; grows rapidly and produces uniformly tender shoots of excellent table quality; much larger, better flavored variety.

Mary Washington—Rust Proof

Now that canning companies have found how to can asparagus and retain all its delicious flavor and healthful food qualities they are contracting for greater supplies every year. At the same time there is a rapidly increasing demand from grocery stores and commission merchants for fresh asparagus during the summer season.

\$4,000.00 From 4 Acres

That is what one local grower made from his field of asparagus, and shows what can be done with the present day asparagus market. 5,000 roots plant an acre. In this section the cutting season is about two months, beginning in May before any other cash crop. One year plants are preferred by commercial growers.

There is a steady demand with average prices of 5 to 8 cents per pound. You can make money growing asparagus now!

New! Paradise Asparagus

Bears a Big Crop in Only One Year

That tells the story of this remarkable new Asparagus. It comes into full production quickly—no need to wait 2 or 3 years to begin cutting. PARADISE was bred and developed to do just that. The rapidly increasing demand for both its plants and stalks as Paradise becomes more widely grown, shows that here is a popular asparagus variety. It is rust resistant and produces great, wonderful appearing stalks of delicious flavor. Paradise is a most promising asparagus for home use and profitable market sale. We are glad to offer this new, early producing, deliciously flavored variety at these low prices:—1-yr. No. 1 roots: 12 for 50c; 25 for 85c; 50 for \$1.50; 100 for \$2.25; 250 for \$4.95; 1,000 for \$15.75. 2-yr. No. 1 roots: 12 for 90c; 25 for \$1.35; 50 for \$2.25; 100 for \$3.95.

Cumberland

Black Raspberries

Always Make MONEY

Black Raspberries have regularly been bringing better than average returns every year. Fruit canneries always contract for a good part of the crop and this insures better prices all around. These are proven, profitable varieties. Michigan grown, double inspected raspberry plants are recognized throughout the country as the best. Our soil is especially adapted to produce sturdy, well rooted quick growing plants.

BRISTOL— The New Better Early Blackcap

Unusually Hardy and Exceptionally Productive

Originated by the N. Y. Expt. Station where so many of our best varieties of all kinds of fruit have been produced, the Station says BRISTOL is probably the best of its new blackcaps for both market and home use.

The Station description states: "Berries are large to very large, firm, of excellent quality and mild, very good flavor. Plant characters are outstanding—vigorous, upright, sturdy, and bear unusually heavy crops; above average in winter hardiness."

You can see that BRISTOL is a most promising variety. It has been sold to the public since 1934 and is proving the statements of the N. Y. Station. You will want to get started with BRISTOL this spring.

BRISTOL PRICES

| | | | |
|---------------|--------|---------------|--------|
| 12 for | \$0.80 | 50 for | \$2.50 |
| 25 for | 1.50 | 100 for | 3.95 |
| 200 for | \$7.40 | | |

Clear money above all expense is what you want and you can depend on Baldwin's heavy producing vigorous plants for it. Cumberland is still the leading berry in the plantings of commercial fruit growers everywhere. Government Experiment stations have found none that promise to be a better money-maker.

If you grow Black Raspberries at all you need this great midseason berry for a complete planting; it is hardy, healthy and produces its big paying crops of fine berries in every fruit growing section. Plants vigorous and very productive; thrive everywhere. Berries large, firm, jet black with a delicious flavor. Wonderful long distance shippers—attractive appearance—always command good prices. Guaranteed to please you and make big money.

New
Logan

Early **NEW LOGAN**

Most Widely Planted Early
Blackcap

This is the early variety growers have been looking for. It has all the good points other early berries have lacked. Its berries are good size, do not crumble (unusually firm), do not dry up, hold a glossy black color and have a deliciously sweet flavor. Logan is a fine home garden berry. Bears heavily, maturing most of its crop before Cumberland begins, and so gets the best of the early high prices. Many Michigan canning companies are contracting Logan because they like its rich flavor and uniform berries.

Ripens 6 to 9 Days Before Cumberland

Logan is recommended by Michigan and Ohio Experiment Stations. It has proven to be an entirely satisfactory commercial berry in the great fruit sections of these states. It is remarkably free from and resistant to disease; a strong grower, throwing out plenty of fruit canes.

We recommend Logan for its earliness, its excellent quality, its firmness and color for market. Plant Logan and you will be well repaid. Our price is low for this fine Early Raspberry.

Save a Year Have Fruit This Summer Bearing Age—Transplants

Every year more growers are planting transplants. These are large, 2-year, well branched, heavy rooted bushes; carefully dug and will go right to work for you. Produce some fruit this summer and a full crop next year. Because of sure growth and quick crops transplants should be in every garden, so don't fail to plant 25 to 50 and have fruit quickly. There is a heavy demand, so order early.

Quillen

Sodus

SODUS

THE BEST PURPLE RASPBERRY

Ripens Early
A Coming Moneymaker

The New Early Purplecap Promises Great Profits

If you have not eaten purple raspberries both fresh and canned, you have a delightful experience coming, for these berries have a color, aroma and flavor that call forth that "more" taste. They are something deliciously different.

This newcomer from the Expt. Station will be a money-maker because of its great size, attractive color, extra firmness and exceptionally heavy crops. Giant, bright purple berries, do not crumble, borne in great clusters on every branch. Flavor good—a blending of red and black raspberry.

SODUS is a rapid grower with great strong canes to carry its big load of fine fruit. So far it has shown almost complete freedom from mosaic; plant safely anywhere. Had no winter damage when others were frozen. Stands dry weather unusually well.

Sodus Has Size, Color and Quality

Sodus is the best of all purple sorts generally planted today; has proved both resistant to drought and hardy in winter cold. A good sized, fine flavored purple raspberry with attractive appearance will make money. SODUS is such a berry and deserves extensive planting for commercial use. At home, its tart flavor and great size are what everyone wants for canning and pies. Plant SODUS for a Really Good Purple Cap.

The New! Morrison Black Raspberry

Bigger, More Profitable—Late Berry

Here is a really better Blackraspberry for both home and market use. Morrison has now been widely tested from Pennsylvania to Michigan, and has proven head and shoulders above other varieties in most every way. Commercial growers say: "Largest blackcap I have seen." "Practically disease free." "Larger and firmer than Cumberland. Does not crumble." "Holds its size to the last of the picking season." "For two years it has brought more than other varieties on the Pittsburgh market."

A county agent says: "The Morrison is somewhat the most attractive berry I have seen in several states. With us the berry ripens slightly later than Cumberland, is considerably larger, very dark and glossy and sells at a premium at all times."

The big bushes are exceptionally vigorous, hardy growers; long lived (some producing well after 12 years), and are practically disease free.

Morrison berries are high flavor, firm, juicy,

not so seedy, and the size averages almost an inch across. They hold up longer in grocery and market, outyield other varieties and MAKE MORE MONEY FOR THE GROWER!

To sum up, Morrison is:

1. $\frac{1}{2}$ larger than any other blackcap.
2. As heavy a yielder as Cumberland.
3. Practically disease free.
4. Does not crumble—holds its size all season.
5. Makes more money because its large size and glossy color make so much better appearance.

Blooming Size *SHRUBS*

FOR A QUICK SHOWING

All our shrubs are not only 2 years old but are 1½ to 2 ft. high. All field grown, heavy, well rooted and branched. They will make a good growth and a fine showing quickly.

FLOWERING ALMOND—Upright grower, 3 to 4 ft. Long branches are thickly studded with small double, delicate pink flowers over their full length, before the leaves appear. Blooms in April.

PRICE: Each, 34c; 3 for 95c; 6 for \$1.65.

FORSYTHIA INTERMEDIA—**Golden Bell.** Earliest shrub to bloom. Bright yellow flowers seem the spirit of Spring, opening before the leaves appear. Grows to 6 to 8 ft. but may be pruned as desired. Branches slightly drooping. Dark green leaves.

PRICE: Each, 27c; 3 for 70c; 6 for \$1.25.

HYDRANGEA P. G.—This showy shrub is perfectly hardy. Large clusters of pure white blossoms, later turning soft pink, from August to late Fall. Superb either singly or in groups; often used as a hedge.

PRICE: Each, 34c; 3 for 95c; 6 for \$1.65.

JAPANESE FLOWERING QUINCE—Scarlet flowers in April and May. Grows 6 to 8 ft. One of the most attractive spring blooming shrubs; blossoms always large, flowering in great masses just as the leaves are coming out. Foliage a dark glossy green.

PRICE: Each, 27c; 3 for 70c; 6 for \$1.25.

MOCK ORANGE CORONARIUS—A large, very hardy shrub producing a profusion of pure white, highly scented flowers. Grows 4 to 6 ft. Blooms in June.

PRICE: Each, 22c; 3 for 55c; 6 for 95c.

MOCK ORANGE VIRGINALIS—A magnificent new variety. Medium height, compact bush. The flowers (single, semi-double and fully double) are the largest and most sweetly fragrant of any variety, with longest early blooming season. Gaining popularity in every state.

PRICE: Each, 34c; 3 for 95c; 6 for \$1.65.

SPIREA VAN HOUTTEI—**Bridal Wreath.** One of the most beautiful and popular of flowering shrubs. In May and June the slender branches droop and form a veritable fountain of snowy white bloom. Thrives anywhere, in shade or sun, wet or dry and grows from 6 to 8 ft. high in good ground. Makes a beautiful ornamental hedge.

PRICE: Each, 14c; 3 for 40c; 6 for 65c.

WEIGELA EVA RATHKE—**Crimson.** 3½-4 ft. June flowering. Of smaller growth than the other Weigelas; decidedly spreading. A profusion of flowers brilliant crimson with white throats is its outstanding characteristic. It is especially showy and an excellent variety.

PRICE: Each, 34c; 3 for 95c; 6 for \$1.65.

WEIGELA ROSEA—**Pink.** 4 to 5 ft. A popular weigela. Delicate pink, bell shaped blossoms profusely borne along arching canes during May and June. Upright, strong growing shrub.

PRICE: Each, 22c; 3 for 55c; 6 for 95c.

Hundreds of Beautiful Blooms from
August to Frost

These marvelous new type chrysanthemums begin to bloom in August and continue their lovely, brilliant and many colored flowers until late fall and heavy frosts. Literally hundreds of blooms on one plant—a mass of color 2 feet high and 2 to 3 feet across. All this beautiful flower growth comes this first summer from the plants you receive and put out this spring. A hardy perennial that will increase in size and beauty each year. Our plants are all grown from carefully selected, heavy flowering, clear colored, established plants. Plant about 18 to 24 inches apart in any good soil. Ideal for borders, in clumps, or a spot of color wherever you want it.

Pink, Bronze, White—25c each.
Yellow—35c each.

BEARING AGE BUSHES

For quick crops in your garden, plant these big 2-year transplants. Heavily rooted and well branched, they are ready to bring you some berries this summer and a full crop next season. **PRICES**—Alfred and Eldorado: 12 for 80c; 25 for \$1.50; 50 for \$2.50; 100 for \$3.95.

ELDORADO BLACKBERRY

Satisfactory Everywhere—Always Dependable

Every good quality possessed by other blackberries is emphasized in ELDORADO. Its exclusive advantages are: Absolute freedom from Orange Rust; a very heavy bearer with great, jet black berries.

Plants are so strong and vigorous they survive severest Northern Winter without mulching; Eldorado will produce paying crops in climates and locations where less hardy kinds will be frozen. A splendid shipper, because the berries are so firm. Plant Eldorado generously. They are making big money for other growers and will do the same for you.

Dollar Making BLACKBERRIES

Did you ever see finer looking berries than those shown here? Blackberries are more popular than ever, but you must grow the right varieties and get the best quality of plants to secure the maximum profits. Alfred and Eldorado are the best grown today and will produce the crops you expect. Blackberries have paid mighty well and now is a good time to plant more.

Early Alfred

Alfred is best for every use. It has been grown by leading fruit growers and proven the **Best Early Blackberry** variety. We unreservedly recommend it to our customers as thoroughly satisfactory and the equal of any blackberry early or late when it comes to producing big crops and paying worth-while profits. Think of a bush full of tremendously big blackberries from 1½ to 1¾ inches long, practically free from seeds, coreless and with a thick pulp fairly bursting with delicious juice. That's Alfred!

Paying Crops of Big, Juicy, Delicious Berries

Alfred ripens a full 10 days ahead of Eldorado and continues all through the Eldorado season. Alfred berries are bigger, brighter colored, of better flavor and bring better prices right along. Once you grow Alfred you won't be satisfied with any other berry—fine, large berries that carry well to market.

The plant is such a vigorous, healthy grower that it produces a good crop the first year after planting. Withstands cold that kills less hardy varieties.

Alfred will please you—whether raised for pleasure or profit. It is another of our splendid varieties—selected for its worth. Alfred plants are still scarce, but we are making a price within the reach of all, because everyone should have this wonderfully fine berry.

LUCRETIA DEWBERRY

Dewberries are in favor because they are profitable. Lucretia is the finest Dewberry—incomparably better in size and flavor than any Blackberry you have seen or tasted. The price the grower receives for Dewberries averages 20 per cent more than for blackberries.

Ripens a week to ten days before the earliest ordinary blackberries. This, and the fact that they are unquestionably one of the finest looking berries of their kind and of such big, uniform size, makes them topnotchers on price in any market. Dewberries are especially productive in light soils.

New Mammoth BOYSENBERRY

\$800 to \$1,500 Income Per Acre

55 of the largest berries fill a quart basket. Average size, 1 inch diameter, 1½ to 2 inches long—largest bush or vine berry known. Bushes are hardy (has stood 19 degrees below zero). Its exceptionally rapid growth, heavy crops, immense size and deliciously different flavor will amaze you. Grows like a dewberry and is as easy to raise. Ripens with them and fruits over a longer season.

Fine for Jams, Jellies, Pies

Boysenberry is a cross of Blackberry, Raspberry and Loganberry. Berries dark reddish-purple, wine-colored, juicy with a high flavor not found in other bush fruit. Unbeaten for jellies, jams, pies. A dozen plants give you all you can use and some to sell.

Enormous Spicy Purple Berries

Boysenberry is a real money-maker because of its outstanding features of immense size, exceptional productiveness, unusual flavor and fine appearance—it is impossible to realize how far superior in all of these qualities it is until you have seen it. Market growers are greatly increasing their Boysenberry plantings because these larger, better berries are proving big money-makers for them.

Don't Miss This Worthwhile
Novelty

RED RASPBERRIES

Latham

**Most Profitable
Late Red**

Latham has definitely proved to be the best red raspberry money-maker in every fruit section of the country. Each year for the past five years we sold more Latham plants than all other red varieties put together.

For general planting in all sections, Latham is the best because this hardy, vigorous grower can be depended upon

Latham

for big annual crops of finest looking berries. Fruit buyers on every market pay a premium for Latham's bright color, firmness and long keeping quality. These things and its most delicious flavor make it equally desirable for home gardens.

Hardy, Productive, Dependable

Hardy and very productive—far out-yielding older kinds, it ripens from mid-season to late. We wish we could convince you what a truly fine berry LATHAM is in every way. If you have grown it you already know. Berries are all above average size, bright red, and make the most attractive appearance of any red variety; the flavor is of the finest. You will make no mistake in planting all you can.

Latham Is Still the Best Fruit Everywhere for Profit

FOR CANNING—Jams and Jellies—Unusually rich color that does not fade, and what a wonderfully delicious, true, fresh raspberry flavor! The ideal berry for canning uses.

GOVERNMENT EXPERIMENT STATIONS—Recent reports from leading fruit states say that Latham is the best and most profitable berry for its season and highly recommend it for planting.

Baldwin's Guaranteed, True-to-name, Disease-free, Genuine LATHAM. You cannot afford to plant any but the best.

Marcy

**New Worthwhile
Midseason Red**

Marcy is the largest red raspberry fruited at the N. Y. Expt. Station in recent years. More than this it has been grown satisfactorily for general production and is proving one of the best mid-season varieties. Ripens just before Latham and its great, long pointed berries and bright glossy color make for above average prices. Mild, sweet, good quality flavor better than Latham but not quite equal to Taylor.

Bushes are tall, very vigorous and upright growing, needing no support and making picking easy. Disease resistant to a remarkable degree; hardy in cold winters. The crop is very heavy. Marcy is recommended as a worthwhile, better red raspberry for home gardens and commercial plantings.

Marcy

Make Money Every Year

You can expect the best raspberry varieties to give you a paying crop every year, just after strawberries are gone. They are demanded for table and canning everywhere at good prices. Every home fruit garden needs raspberries to make it complete. These are the best varieties and our prices are right—plant raspberries and make paying investment.

Good disease-free, healthy stock is needed by every grower—to plant any other kind is a waste of money. Berrien County, Michigan, is recognized as having the most healthy, most vigorous raspberry plants grown and every Baldwin plant is twice inspected and certified by Michigan State Inspectors. This makes your success more certain.

Chief

**FOR EARLY PROFIT
PLANT
CHIEF**

CHIEF

The Best Early Red Raspberry
for Home or Market

Chief is replacing King and other early kinds because it is better. Early Chief is paying Michigan growers well. Berries are of good size and color, firm, and reach the market in good shape for early-season high prices. Perfectly hardy, a vigorous grower and heavy producer—Chief will make good anywhere.

Chief plants received from us are guaranteed true-to-name and No. 1 in every respect. Early red raspberries always pay well and with Chief you can depend on some extra profits. It has been a long time since we offered an early red raspberry we think so much of as Chief, and we recommend it to you as better than any other early red sort.

Taylor

Giant-Size Better
Late Berry

Taylor is rapidly coming to the front as the best general purpose red raspberry next to Latham. It has stood up and produced paying crops under most every growing condition and in every fruit section where it has been planted.

This new variety has every quality needed to make it a perfect berry. Berries larger than any other, except Newburgh, uniform and pointed in shape, very firm (will not crumble when picking) bright snappy red color—all qualities that make TAYLOR an ideal shipper, arriving in best appearance to bring highest prices. Its large size holds up well over a very long season. Its deliciously sweet flavor and thick juicy flesh make it just right for eating, canning and preserving at home.

Outstanding In Every Good Quality

The bush is an unusually upright strong-caned grower, makes picking easy and keeps the fruit well off the ground. Plants are exceptionally hardy under severe weather conditions. Crops are unusually heavy. Originated by New York Expt. Station and is the best of its recent new kinds. TAYLOR has shown that it will become a leading red variety in all fruit sections because it is outstanding in every good quality.

TAYLOR is a really fine variety. You will make no mistake in planting now.

Indian Summer

INDIAN SUMMER

New Everbearing Red Raspberry

Here is a distinctly new type of everbearer, unlike any older kind.

"Marvelous" justly describes Indian Summer. The quantity, size and quality of the berries it produces in September, October and November are truly marvelous because they are so far superior to any other everbearer. With such a berry you can make worth-while profits from the high prices always paid for off-season fruit. You get a good early crop in the regular season, too.

Far Superior to Any Other Everbearing Raspberry

Berries are uniform, rich red, thimble-shaped, large and juicy; flavor a true, tart, delicious raspberry. St. Regis berries are small and poor by comparison. A thrifty grower and heavy producer. Another N. Y. Station berry. You have never seen any fall berries as good in every way as INDIAN SUMMER. **Be sure to plant this spring.**

A full-sized, heavy-bearing, fine quality, real red raspberry that bears in September, October and November.

Makes money because its big fall crop of fine fruit can be depended on for high out-of-season prices.

Indian Summer is as good a fall bearing raspberry as Mastodon is an everbearing strawberry—and that is saying a lot.

We Can and Do Recommend INDIAN SUMMER.

ST. REGIS Everbearing

This old and well known everbearer is planted by many growers. Bushes are good size, upright, vigorous and remarkably free from disease. Produces a full spring crop as well.

PRICE: 1 yr. No. 1, 25 for 85c; 50 for \$1.55; 100 for \$2.75; 250 for \$5.40; 1000 for \$17.75. 2 yr. Transplants, 25 for \$1.25; 50 for \$2.35; 100 for \$3.75.

Bearing Age TRANSPLANTS

Have Fruit This Summer—

Big, well-branched, two-year old bushes will bear this summer. These time-savers please everyone. Because of sure growth and quick crops, transplants should be in every garden and many more are planting them every year. We have first-grade plants in the following: Chief, Latham, St. Regis, Taylor, Indian Summer, Golden Queen.

"Golden Queen" YELLOW RASPBERRY

Think of great, golden-yellow "red" raspberries of sugary sweetness—that's the kind of berries Golden Queen produces. There is nothing finer for the home table and canning than this heavy bearing, unusual and beautiful fruit. Canes are thrifty, hardy and almost free of thorns. Plant a Few in Your Garden This Spring. (NOTE—the 2 year Transplants will begin bearing this year.)

PRICE: 1 yr. No. 1, each 20c; 3 for 45c; 6 for 80c; 12 for \$1.35; 25 for \$2.25; 50 for \$4.50; 100 for \$6.95. 2 yr. No. 1 Trans., each, 35c; 3 for 85c; 6 for \$1.35; 12 for \$2.25; 25 for \$3.75; 50 for \$6.95; 100 for \$12.50.

Famous

PEACHES

Hale Haven

MID-AUGUST. Wonderful new peach with great size and beautiful color of J. H. Hale and earliness of South Haven. A better peach of richest flavor; yellow flesh firm and juicy. Better shipper than South Haven; always freestone; bears every year. Hale Haven is one of the best and its sale shows a far greater increase than any other kind. Always brings more money. Ripens 10 to 15 days before Elberta and is second only to that grand variety in popularity and profits.

ELBERTA—SEPTEMBER 1. PLANTED BY THOUSANDS. Standard commercial peach. Plant Elberta and be sure of a crop. Large to extra large. Freestone. Golden yellow flesh, red at the pit, firm, juicy. Has no equal as a prolific bearer and shipper. Best known peach.

J. H. HALE—LATE AUGUST. FIRST IN SIZE, COLOR, QUALITY. Yellow, thick skin, colors to a rosy tint. Deep yellow, fine grained very firm flesh—delicious flavor. A beautiful peach, fresh or canned. In size, color and quality, no peach compares with Hale. Always brings \$1.00 to \$1.50 more per bushel.

SOUTH HAVEN—AUGUST, THE PROFITABLE Early Peach. Originated in the famous Michigan Peach Belt, South Haven, has proven one of the best varieties in every peach growing section. Experiment Stations recommend it when an earlier peach than Elberta is desired. Withstands severe winter cold. As fine a peach as the standard Elberta, firm, highly colored—and ripens 12 to 18 days earlier.

CHAMPION—EARLY AUGUST. BEST WHITE Freestone. Many prefer this white peach. Full of rich juice, finest flavor. Large red cheek. Heavy bearer; very hardy.

New HARDEE

U. S. Plant Patent No. 120

THE HARDEST PEACH—PRODUCES FULL CROP AFTER 18 DEGREES BELOW ZERO

This record is reported by Ohio Experiment Station. It means sure crops when even Elberta fails, and that means soaring peach prices. HARDEE is a drought-resisting, steady bearing, sure-cropping tree. Fruit is a delicious, high quality, yellow freestone. Ripens with Elberta; is more elongated, rich yellow with red cheek. Shipping, keeping and home use qualities are excellent. Successful peach crops can now be grown in many sections that were too cold before. Plant HARDEE, the cold resisting peach, and safeguard your future crops.

PRICES: 7/16 trees, Each, 69c; 3 for \$1.95; 10 for \$5.50; 25 for \$12.50. 9/16 trees, Each 79c; 3 for \$2.25; 10 for \$6.50; 25 for \$15.00. (Net, No Discount.) Order Your HARDEE Trees Now!

POLLY—New White Peach

A large, richly blushed beauty—round and firm. Its white flesh is full of juice, lusciously sweet in flavor, superior in quality. Fully freestone. Polly is one of the finest for home use and home markets that has been introduced in a long time. Thoroughly tested for several years; has been able to withstand 15 to 20 below zero; tree is a vigorous grower; a heavy and a regular bearer. Make room for at least a few Polly.

PRICES: 7/16 in., 3 to 4 ft., Each 39c; 3 for \$1.15; 10 for \$3.50; 25 for \$8.65. 9/16 in., 4 to 5 ft., Each 49c; 3 for \$1.45; 10 for \$4.50; 25 for \$11.15.

Kalhaven

Kalhaven was originated by Mr. Stanley Johnston of the Michigan Expt. Station and introduced in 1936. Ripening about a week before Elberta and a week after Halehaven it is another profitable peach coming on the market before Elberta. It is a cross of J. H. Hale and Kalamazoo to give it large size, rich red-yellow color, and fine flavor. A vigorous and heavy producer; exceptional hardiness for cold winters. Shipping quality is excellent. In fact Kalhaven is not only a good peach, it is an all around superior peach that is being more heavily planted each year.

PRICES: 7/16 in., 3 to 4 ft., Each 34c; 3 for \$1.00; 10 for \$2.95; 25 for \$7.15. 9/16 in., 4 to 5 ft., Each 39c; 3 for \$1.15; 10 for \$3.50; 25 for \$8.65.

McIntosh

Old Favorite APPLES

Buy Baldwin guaranteed true-to-name, well rooted, quick-growing trees. These are high-quality, proven value varieties, best adapted to eastern, middle-western and northern soils and climates. There is real pleasure and a big saving in having two or three trees of each fruit right in your garden. As a commercial proposition, tree fruit is always in profitable demand.

BALDWIN—WINTER. This widely known variety averages about medium size, rich dark red, juicy, fine flavor. Good for market and home use. One of the first two or three varieties in the great Michigan and New York apple sections.

CORTLAND—WINTER. Many customers have asked us for this newer apple and we are glad to supply them. Cortland is an excellent, early bearing, long keeping McIntosh type. Large fruit streaked with bright red and yellow. One of the best commercial sorts.

DELICIOUS—(DOUBLE RED). Winter. Known world over. Brilliant dark red, shading to yellow at blossom end. Large to very large; white tender juicy flesh. Wonderfully rich sub-acid flavor—truly delicious. Ships without bruising, makes a wonderful appearance, commanding top prices. Comes into bearing early.

YELLOW DELICIOUS—LATE FALL. This beautiful new apple has the distinctive shape and big size of Red Delicious with an added deliciousness and mildness of flavor that is unsurpassed by any apple. Flesh solid, crisp and full of juice; its rich golden-yellow, firm smooth skin gives it a luscious appearance. This new, highest quality apple is always in demand and brings top prices. Plant it now.

GRIMES GOLDEN—WINTER. Favorite mild eating apple. Excellent keeper, uniform shape, typical dull gold color. Hardy productive tree. Carefully selected and grafted trees insure satisfaction with this fine apple.

McINTOSH—WINTER. A MONEY-MAKER TODAY. Juicy snow apple—white, crisp flesh; beautiful solid crimson color. Excellent quality—winelike, true apple flavor. Good annual bearer. Rapidly increasing popularity among consumers everywhere makes good prices certain. One of the most profitable apples.

NORTHERN SPY—WINTER. The old, well-known favorite. Delicious juicy flavor; excellent for eating and cooking. Brilliant streaked red color. Always in demand; good prices; long keeper.

YELLOW TRANSPARENT—EARLY FALL. Has proven both popular and profitable. Fruit large yellow with crisp sub-acid flavor. Heavy annual bearer; well known everywhere.

HYSLOP CRAB—Recognized as the best of all crabapples. Its hardy, quick growing tree comes into bearing early. Strong, disease-resistant. Always a heavy annual bearer. Fruit beautiful deep red; firm, juicy, uniform—sells well. Fine for home use.

JONATHAN—LATE FALL. Sold in every store. Glossy red; fine grained, juicy flesh, excellent flavor. Medium to large size. Unusual keeper (to February) makes it a most profitable commercial apple. Quick to bear and easily grown in practically every fruit section. Jonathan is first choice in many homes.

RED ASTRACHAN—BEST EARLY SUMMER. Well known old sort. Large round, crimson apple; rich juicy, excellent eating and cooking early apple, vigorous and productive tree.

STAYMAN'S WINESAP—LATE WINTER. Best Winesap. Extra large, bright red, crisp, juicy with a wonderful zestful flavor. Stayman easily leads all other Winesaps. Heavy bearers and big money-makers everywhere.

WEALTHY—FALL. Heavy yearly bearer. Hardy, long lived. Attractive, brilliant, red striped; superior quality, wine-like flavor. An all-round apple for eating, cooking, cider and market.

Three Of The Better New Apples

ANOKA—Have Apples the Second Year. Bears on one year old growth and bears annually. Ripens in August; very heavy bearer; fruit red stripes over yellow; fine cooking quality, short keeper. Originated in South Dakota, perfectly hardy. Does best in central and northern sections.

PRICE: 9/16 in., Each, 47c; 3 for \$1.40; 10 for \$4.25.

BEACON—All-Red Early Eating Apple. Originated at Minnesota State Farm; exceptionally hardy. Superior among early apples for its uniform good size, bright solid red color, excellent flavor, good keeping (a month after picking) and cooking qualities. Ripens about with Duchess and often sells for twice as much.

PRICE: 9/16 in., Each, 47c; 3 for \$1.40; 10 for \$4.25.

DOLGO CRAB—Striking, Dazzling Red, New Crabapple. Unbelievable heavy bearer; free from blight. Jells quickly even when fully ripe. Good to eat fresh. Beautiful hardy trees, thrives everywhere. Called the "Perfect Crab." Dolgo is replacing older varieties. Its lustrous green leaves and mass of pink blossoms make it ideal for lawn planting.

PRICE: 9/16 in., Each, 54c; 3 for \$1.50; 10 for \$4.60.

Dolgo Crab Apples

NOW! DWARF TREES

At Reasonable Prices

Dwarf apple and pear trees are highly prized for the small garden where space is limited. They make plenty of fruit possible as these sturdy little trees bear a big crop way out of proportion to their size. Dwarf trees are well suited for ornamental planting too, and their fine, fresh fruit is always a pleasure.

Full Size Fruit from Dwarf Size Trees

Well branched, well rooted, 2 to 3 foot, 2-year trees ready to make quick growth and good crops of full size fruit. Plant about 10 feet apart.

McIntosh Apple—for early fall.

Red Delicious Apple—for late fall.

Northern Spy Apple—old favorite winter apple.

Baldwin Apple—excellent red winter apple.

DWARF APPLE PRICES: Each 98c; 2 for \$1.85; 3 for \$2.65.

Bartlett Pear—Favorite summer pear.

Seckel Pear—Early fall sugar pear.

Clapp's Favorite—large delicious fall pear.

DWARF PEAR PRICES: Each 58c; 2 for \$1.00; 3 for \$1.40.

Large healthy roots to feed 5 varieties

Quintuplet Apple

5 Kinds of Apples on One Tree!

This one tree gives you delicious apples from early season to late winter. These five fine varieties are budded on one tree—Double Red Delicious, Yellow Delicious, Dark Red Jonathan, Wealthy and Crimson Winesap. Just right for your garden if you don't have room for five trees. Plant one or two of these unusual trees and have five varieties of apples.

PRICE: 2 yr., 9/16 to 11/16 in., 5 ft. and up, Each, \$1.50; 2 for \$2.85; 3 for \$3.95.

Montmorency
Cherry

Baldwin's Reliable Cherries

SOUR CHERRIES

EARLY RICHMOND—One of the most popular sour cherries, unexcelled for cooking. Dark red, tart, and juicy. Hardy trees uninjured by cold. Big crops.

MONTMORENCY—Ripens late in June and is best sour cherry for market. Makes delicious pies; fine for canning. Fruit larger than Richmond; bright red, acid flavor.

Grow Montmorency for the Canning
Factory Market

SWEET CHERRIES

BLACK TARTARIAN—Extensively planted and prolific. Regular bearer of big, black juicy, sweet fruit. Hardy, vigorous. Best and most profitable black sweet cherry—for market and home.

NAPOLEON-YELLOW—Old-time favorite, succeeds practically everywhere. Heavy bearer of large light yellow heart-shaped fruit.

SCHMIDT'S BIGARREAU—Newer sort. Unusually hardy. One of the best late sorts, especially in Northern sections. Largest size, firm fruit; deep red to mahogany. Brings best prices.

WINDSOR—Liver colored large cherry, wonderful flavor. Originated at Windsor, Canada. Hardy prolific tree. Valuable for market or family use.

APRICOTS

MOORPARK

Everyone likes apricots both fresh and in sauce and pies. Why not have 2 or 3 trees of this delicious fruit in your garden? Moorpark is one of the largest kinds. Golden yellow fruit, red cheeked, freestone, sweet and juicy. Tree is quite hardy (about like standard plums) and a heavy bearer—ripens August.

Price: 1 yr. 7/16 in., 3 to 4 ft., each, 59c;
3 for \$1.75; 6 for \$3.15; 10 for \$5.45.
1 yr. 9/16 in., 4 to 5 ft., each, 63c; 3 for
\$1.90; 6 for \$3.45; 10 for \$5.95.

MANCHURIAN APRICOTS

—are perfectly hardy in the Dakota winters; sure to produce a crop. Medium size, very heavy bearers, delicious true apricot flavor. Here are two good varieties.

MANDARIN—Large, rich yellow fruit. High quality when fresh or cooked into sauce.

ZUN—Fruit is round and freestone with unusually small pit. Excellent quality and flavor.

PRICE on Manchurian Apricots: 1 yr., 7/16 in., each 85c; 3 for \$2.45; 6 for \$4.75.

QUINCE

ORANGE—Best of All Quince. Regular annual bearer of fine, large delicious fruit. Makes delicious jam and quince "honey." Hardy, early bearing trees. Plant for Profit—Quince always brings high prices.

PRICE: 2 yr., 7/16 in., 3-4 ft., each, 54c;
3 for \$1.55; 6 for \$2.95; 10 for \$4.95.

Pears

THE WORLD'S
MOST DELICATELY
FLAVORED FRUIT

BARTLETT—SUMMER. Known for quality. One of the best known and popular varieties for both commercial and home orchard planting. Golden color with red streak, mellow and indescribably delicious both fresh and canned. Heavy bearer.

KIEFFER—FALL. Best pear for large commercial planting, because of its sure crop, heavy yield and excellent shipping qualities. Kieffer has been proven unexcelled for commercial canning. A local cannery used over 200,000 bushels in one season.

SECKEL—EARLY FALL. A medium size pear that ripens late in September. Extremely fine quality and flavor. Always in market demand and equally valuable for home use.

Douglas Pear—Bears In 2 Years

Why wait 5 or 6 years for a crop of pears when the NEW DOUGLAS very often bears the second year? Young trees have been known to bear in the nursery row. Heavy bearer of good quality fruit. Very hardy, producing fruit from a second set of blossoms when the first was frozen. Very blight resistant. Juicy, sweet, delicious.

PRICE: 2-yr., 7/16 in., 3 to 4 ft.—Each, 59c; 3 for \$1.75; 10 for \$5.45.

2-yr., 9/16 in., 4 to 5 ft.—Each, 63c; 3 for \$1.80; 10 for \$5.65.

NEW SEEDLESS PEAR

Eat it All—Can It Whole

No Seeds—No Core

Illustration on back cover

Discovered by Mr. Cope of Ohio, this remarkable pear is described by Prof. Ellenwood of Ohio Expt. Station as being well worth wide trial. Ripens 10 days after Bartlett. Has Bartlett's fine color, good size, and wonderful flavor—but no seeds or core. Think of eating right through a delicious pear! Easy to prepare salads; for canning, just peel and can whole.

Begins bearing in 3 years with a full crop in 5. Trees are rapid growing, hardy and unusually free from blight.

Grow it for Market

This new pear is not a novelty but a profitable fruit. Keeps in common storage excellently for 2 weeks. Produces heavily; ships well. Such a pear should command top prices on your market. Order what you want early.

PRICE: 2-yr., 7/16 in., 3 to 4 ft.—Each, 65c; 2 for \$1.25; 3 for \$1.80.

2-yr., 9/16 in., 4 to 5 ft.—Each, 85c; 2 for \$1.65; 3 for \$2.49.

Hardy Plums

BURBANK—DELICIOUS TABLE Plum. Hardy Japanese variety free from black knot. Deep red color, unusually delicious flavor. Keeps three weeks after ripening. Ripens August 15 to Sept. 1.

GERMAN PRUNE—BEST for Canning and Preserving. Medium size dark purple plum. Firm, sweet, the favorite everywhere for canning. Tree easy to grow, remarkably free from disease, very productive. Good keeper, excellent shipper. Ripens in September.

GREEN GAGE—THIS ROUND, GREENISH-YELLOW plum has about the sweetest flavor of all. Every housewife wants Green Gage for canning and preserving. Medium size, full of juice, unusually heavy bearer. Always sells well. Late September.

YELLOW EGG—BEST YELLOW PLUM. Extra Large Fruit. Clear yellow egg shaped. Fine for table or canning use. Hardy productive tree. Ripens August.

Plum Tree Prices

STANLEY PRUNE

Recommended by New York Expt. Station as the best new early plum—early August, 10 days before German Prune. This new Stanley is the finest prune type plum; fruit largest size, dark bluish purple, free-stone, fine grained, tender, juicy and sweet. Firm and does not crack. Excellent quality for cooking or eating. Produces heavy full crop every year; often bears in 3 years.

PRICE: 2-yr., 7/16 in., 3 to 4 ft.—Each, 69c; 3 for \$1.95; 10 for \$5.95.

2-yr., 9/16 in., 4 to 5 ft.—Each, 75c; 3 for \$2.05; 10 for \$6.45.

BALDWIN'S BETTER

CONCORD The Universal Black Grape

Concord is always in good demand—the standard by which all other black grapes are judged. No vineyard or arbor is complete without Concord. Best for market, eating and home uses.

It is the main crop for every grower everywhere and produces big crops on any soil every year. After the first expense the cost of up-keep is but little. It is a profitable permanent investment.

Our Concord vines are well rooted, especially adapted to the central west and guaranteed to reach you in perfect growing condition.

Concord

NIAGARA—(White)

Best White Grape for Every Purpose

The best known and most popular of all white grapes, ranks with Concord in prolific bearing size and quality. An unusually mild delicious flavor makes Niagara one of the finest table grapes. A hardy, vigorous grower that will always make good vines and yield heavy crops.

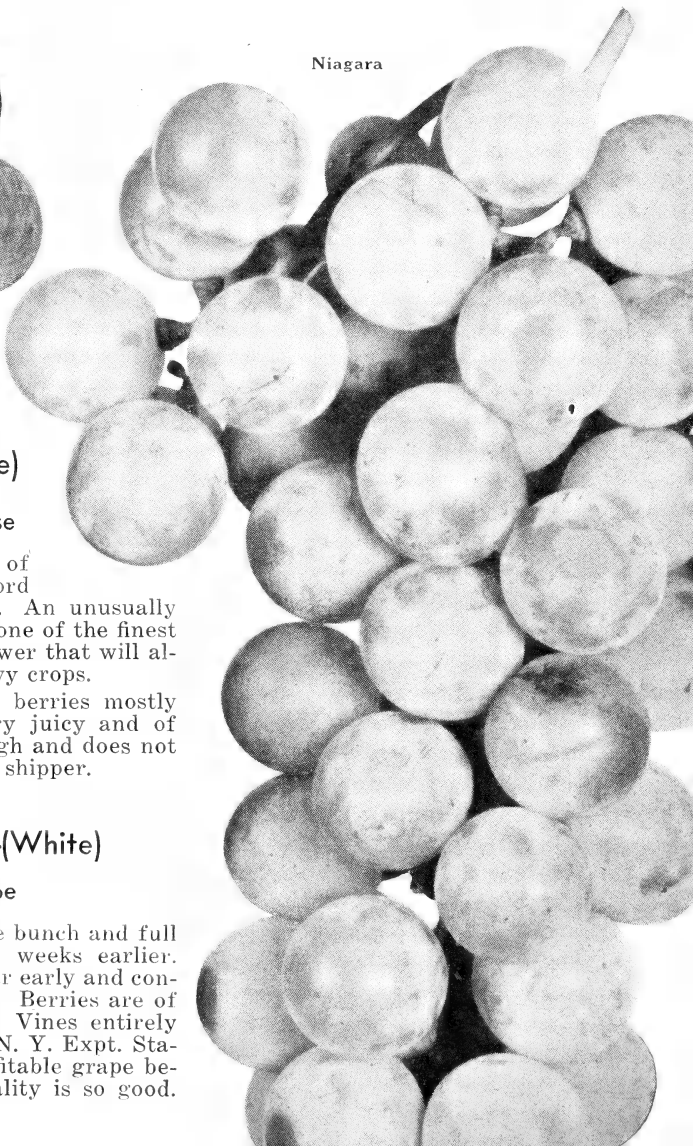

Medium compact, large bunches; berries mostly round, of greenish-white color; very juicy and of excellent flavor, skin is thin but tough and does not crack, making it a fine long-distance shipper.

New PORTLAND—(White)

Fine Extra Early Grape

Similar to Niagara in its large size bunch and full oval berries, Portland ripens three weeks earlier. Production is heavy, young vines bear early and continue to bear good crops every year. Berries are of good size, fine and sweet in flavor. Vines entirely hardy. Portland was introduced by N. Y. Expt. Station and is proving an excellent profitable grape because it ripens so early and its quality is so good.

Niagara

GRAPE VINES

A Lifetime of Crops and Profits

Michigan vines rank among the finest grown, and, because of our specially adapted soil and location, you can depend on these of ours. Every one is grown from heavy producing vineyards only, so they will bear full crops of No. 1 grapes for you. Really good grape vines are scarce because it requires proper soil, fertilization and grading to produce first grade stock. We are fortunate in having some fine, well-rooted vines. It is no trouble to grow grapes. Few plantings have been made recently, so now is the time to plant.

Because of conditions in Europe, wine making is on the increase in this country. This means a greater demand and better prices for all grapes in the next few years. Why not plant now and be ready with good crops of fine grapes?

New Fredonia

A Far Better
Extra Early
Black

Originated and tested by N. Y. Expt. Station, FREDONIA is the best extra early sort, ripens 10 days before Moore's Early and 3 weeks ahead of Concord. Berries are very large, hang well to the bunch and are firm, juicy and of fine flavor. Skin is thick and tough to make a good shipper. Vine is vigorous and productive with medium size very compact bunches.

Early grapes make the most money and FREDONIA is a fine quality extra early grape far ahead of any other early kind now on the market. The bunches keep their vine-fresh firmness and fine appearance for days after picking. Begin your planting of this new kind this spring.

New CACO—(Red)

Big, Sweet, Juicy, Productive

Caco is A-1 in every respect. Hardy, quick bearing, produces every year; fruit beautiful, unusually large size, clear amber color and best of all has a flavor of such sweetness it is a superior table grape.

Caco is a most beautiful hardy grape. Always in demand at grape markets with extra prices. Widely endorsed by experiment stations. Vines just as easy to grow as any other. There is always room for a few vines somewhere. **Don't be without Caco.**

DELAWARE—(Red)

Long called the standard of excellence of all grapes as a table delicacy. Bunch small, compact, sometimes shouldered; berries small with thin skin and of unusually sweet flavor. Ripens with Concord. Hardy.

It is impossible to tell you how really delicious these little red grapes are. Don't fail to plant a few vines this spring. Just a little space over the back porch or on a trellis. 3 or 4 vines.

Fredonia

MOORE'S EARLY—(Black)

A heavy producing early variety. Profitable for commercial growing because it gets the early season prices. Similar to Concord in appearance and quality, ripens about two weeks earlier. Its peculiar sweet flavor makes it a good table grape.

To Help You Grow Better Fruits and Flowers

Soilmaster and Acid Sodas Humus

Soilmaster is decomposed, concentrated leaf-mold and decayed vegetation. It is a natural plant food and fertilizer and soil builder superior to stable manure; is clean, odorless and does not burn. Ideal for ornamentals and lawns. Acid Sodas Humus is the acid form of this composition and is particularly suited to strawberries, blueberries and any plants requiring acid soil.

BUG-DUST-O-CIDE

This improved insecticide and fungicide is a big help in easily controlling most of the insects and diseases that attack fruit, flowering and vegetable plants. Harmless to animals and humans when used according to directions. A triple acting many use dust easily applied with dust gun included with special offer.

INSTRUCTIONS FOR ORDERING—PLEASE READ CAREFULLY

LOCATION:—Bridgman, Berrien County, Southwestern Michigan—the heart of the "Michigan Fruit Belt." Fast service to Chicago trunk lines east, west, north, south.

PARCEL POST SHIPMENTS:—See Table Below. Locate the group in which you live and then figure amount of postage to send from table below. Cheaper for small orders. Prompt delivery to your door. If you request mail shipment, but include no postage in your remittance we will ship C.O.D. for exact postage required.

EXPRESS SHIPMENTS:—Reduced rates from Bridgman now make express cheapest for all except small orders. All shipments insured. Rapid handling and safe delivery guaranteed. Generally the best way of shipment. Charges not prepaid.

SHIPPING SEASON—SPRING:—From about March 15th to May 25th, according to season. Fall:—October 15th to November 15th.

PACKING:—No charge. All plants packed in damp moss or shingle tow. Will keep in good condition 5 days to 2 weeks, according to time of shipment and weather conditions. Each variety carefully separated and correctly labeled.

SUBSTITUTION:—Not without your permission except on late orders when time is often saved by substituting varieties of same season and value as those ordered. Satisfaction guaranteed on varieties substituted.

HOW TO ORDER:—Write your name and address plainly on enclosed order blank. Indicate "Mail," "Express," or "Our Judgment," as you prefer. If express shipment, be sure there is an express office at the destination you give. Send remittance. Orders acknowledged.

PRICES:—Any increase in the cost or selling price of nursery stock listed in this catalog made necessary by state or federal taxes or legislation, by inflation, or by other causes beyond our control may be added.

TERMS:—Orders of \$5.00 or less, please send cash with order; if more than \$5.00, you may remit 25 per cent of total with order, balance before shipment if you prefer. If you request, we will make C. O. D. shipments up to May 1st, when 25 per cent of total amount is sent with order; no discount allowed.

REMITTANCE:—Postoffice Money Orders are safest. Express Money Orders, Bank Drafts and Personal Checks accepted. If you send Currency register your letter.

REFERENCE:—The State Savings Bank, Bridgman, Mich., Express Agent or Postmaster, Bridgman, Mich.

COMPLAINTS:—All complaints as to condition on arrival, shortage, or errors must be made within five days after stock is received. This allows ample time to examine shipments and if there is anything wrong, advise at once. Complaints as to condition on arrival must be accompanied by express or postoffice receipt showing statement of bad condition.

Bridgman, Mich.

If you know of five neighbors who are going to plant nursery stock this spring, write their names and addresses plainly on the back and we will include a **FREE PLANT GIFT** in your order..

SOILMASTER PLANT FOOD

Soilmaster is a decomposed, concentrated leaf-mold and decayed vegetation properly mixed with marl and scientifically blended to give the best results. It should not be confused with plain peat-moss or muck. No filler is used in its composition. By adding water it gradually breaks down so the plant receives food throughout the growing season. This is the humus to use on lawns, around shrubs and in your garden. Holds seven times its weight in moisture, and is a good fertilizer. Rejuvenates gardens, lawns, shrubbery and trees; is a natural plant food, a natural soil builder; far superior to stable manure, has the same fertilizing value, is clean, odorless and does not burn; and can be applied any time and anywhere. Is ideal for potted plants, bulbs and flower gardens. Requires less water after application than other fertilizer as it holds moisture for an indefinite period. Makes the soil mellow and prevents baking. Soilmaster goes farther, lasts longer and is more economical; two busel bag, which is approximately 100 lbs., is enough for 100 sq. ft. of lawn surface or 8 good sized shrubs or ornamentals. You are assured of a three years' growth in two years' time by using Soilmaster.

Sodus Acid Humus

Sodus Acid Humus will hold moisture and has the same fertilizing value as Soilmaster—the only difference between the two is that one is sour and the other sweet. We recommend this humus for Evergreens, Rhododendrons and Blueberries, or any shrub or ornamental that requires an acid soil. It is also ideal for bent grass lawns where an acid condition is necessary.

NOTE: BOTH CONTAIN ACTIVATED
VITAMIN B.

Giant Blueberries

Ornamental as Well as Enormously Productive

These genuine cultivated Blueberries have been originated and improved by government experiment to produce big yields of giant size, deliciously sweet berries. Berries 3 to 4 times the size of wild kinds. Now every garden can have enough of this healthful fruit for canning and pies—2 to 6 bushes. Two or three varieties to lengthen the season are advised. Ripen from early July to late August. Bushes make a beautiful and useful ornamental shrub.

RANCOCAS. Midseason. Hardy, vigorous, productive; very large, firm berries of excellent sweet flavor.

HARDING. Midseason to late. Sweetest of all. Hardy, very productive; spreading growth. Longer fruiting season.

JERSEY. Late. Largest of 10 leading kinds, of fine appearance and average yield. Jersey is one of the best cultivated blueberries. Strong sturdy bushes.

RUBEL. Very late. Hardy, vigorous and very productive, upright grower; large, extra firm berries of good quality. Recommended for commercial use.

PRICES OF BLUEBERRY PLANTS

2-yr., No. 1, sure to grow; start to bear second season: 2 for \$1.35; 4 for \$2.40; 6 for \$3.25; 12 for \$5.95; 25 for \$11.25.

3-yr., No. 1, bearing-age bushes: Each 95c; 2 for \$1.75; 3 for \$2.50; 6 for \$4.50.

Blueberries can be grown satisfactorily on sandy or muck soil that is strongly acid and well supplied with water. Soil not acid can be made so by mixing in acid peat or Sodus Acid Humus. (See back of order blank.)

Blueberries For Market

Cultivated Blueberries for market are profitable, selling retail from 35c to 65c per quart. Berries are firm and ship well. Many new plantings are being made because profits are good.

Bushes last a lifetime and require no unusual care, yields vary from 3 to 9 quarts per bush depending on age. Plant 5 to 7 feet apart. Of the many varieties being offered we have selected the 4 that in our opinion are best, most productive.

\$2.19**

New Thornless **BOYSENBERRY**

Now! You can enjoy the deliciously different Boysenberry flavor (it's a combination of raspberry, blackberry and loganberry) and the great size and beautiful color of the berries without the discomfort of thorns. This new Boysenberry is absolutely thornless and picking is a pleasure. Unsurpassed flavor for canning—jams—pies.

Thornless Boysenberries ripen 10 days to 2 weeks earlier than the thorny kind, and for that reason bring good prices. The yield is as heavy and berries are the same rich purple-black color, altho somewhat smaller in size. Flavor is slightly sharper, more "tangy". Thornless is hardy and a vigorous grower like its parent.

Don't fail to get Thornless Boysenberry this season and enjoy delicious Boysenberries at their best! (Prices page 19)
